

thesis

Thesis combines lightness and elegance with a minimalist design language. You can use it as a desk in your office or as a dining table at home.

The recessed frame creates the impression of a floating table top. The sliding mechanism hides a cable duct where all kinds of cables can be neatly stowed.

Thesis is 73 centimetres high, 80 or 90 centimetres wide, and between 73 and 300 centimetres long.

The steel base, powder-coated in black or dark bronze, features fine lines that add to the lightness of the table. The slim tabletop is made of MDF veneer, linoleum or synthetic resin.

Thesis is so variable in shape, colour and material it will make every room more beautiful and embellish your life with its simple style.
