

## Product notes

### Instructions for use of Uni file cabinet 425

#### Please always note

This cabinet is fitted with a blocking system to prevent accidental misuse. Only one drawer can be opened at one time. Another drawer can only be opened once the drawer that was already open has been completely closed. This will avoid your cabinet from toppling over.

In case of improper use the blocking system could be damaged.

We wish you will enjoy using the Unikorpus 425.
