

## lizard de luxe

The somewhat more classic version of our Lizard Sofa has loose back cushions and a reduced seating depth. Lizard de luxe thus offers a sophisticated traditional seating comfort with extremely elegant proportions. Low and stretched out, it will always appear generous without dominating the living space.

La version plus classique de notre canapé Lizard, est assortie de coussins dorsaux individuels et d'une densité d'assise plus faible. Le modèle Lizard de luxe offre le grand confort d'assise traditionnel et présente des lignes aux proportions très élégantes. Avec son assise basse et sa grande longueur, il offre une place généreuse sans pour autant écraser la pièce de ses dimensions imposantes.

Die etwas klassischere Version unseres Lizard Sofas hat lose Rückenissen und eine geringere Sitztiefe. Lizard de luxe bietet so einen hohen traditionellen Sitzkomfort mit aussergewöhnlich eleganten Proportionen. Niedrig und langgestreckt wirkt es immer grosszügig, ohne den Raum zu dominieren.
