Installation instructions Lizard Bed

Parts Overview

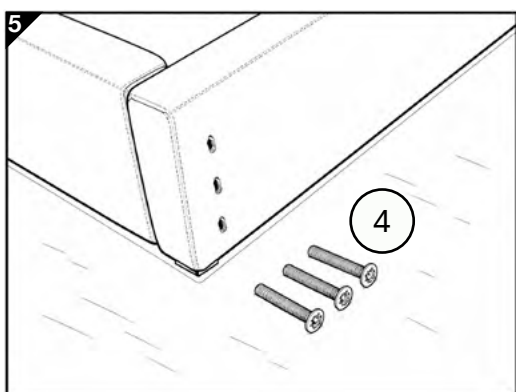

There are two types of feet in which the square tube is oriented differently

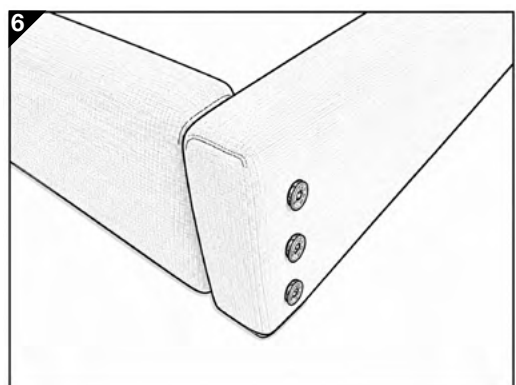

Parts Overview

Lay out the side panels as shown to avoid assembling them incorrectly.
The milled side must face the base panel

Installation instructions Lizard Bed

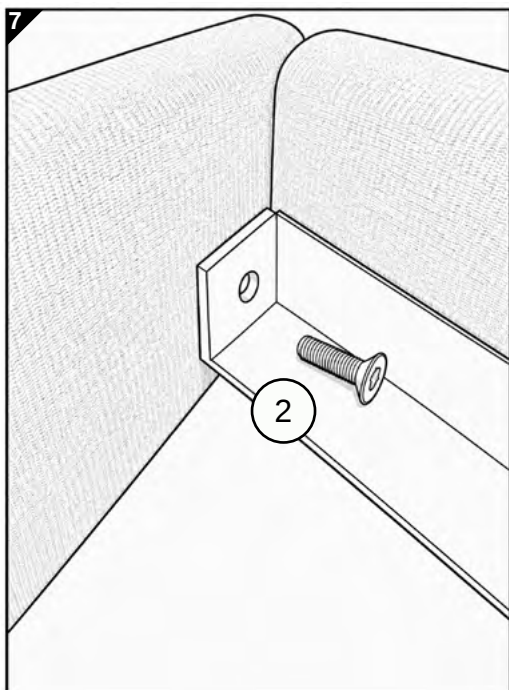

Insert the left and right side panels into the foot section so that the side panels sit flush

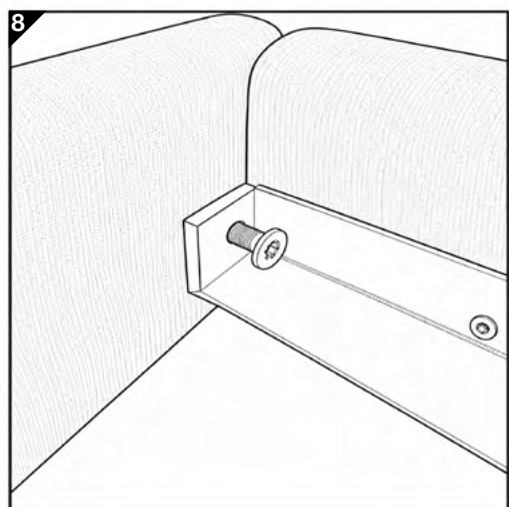

Next, fasten 3 M8x50 countersunk screws in each location and tighten the screws only loosely

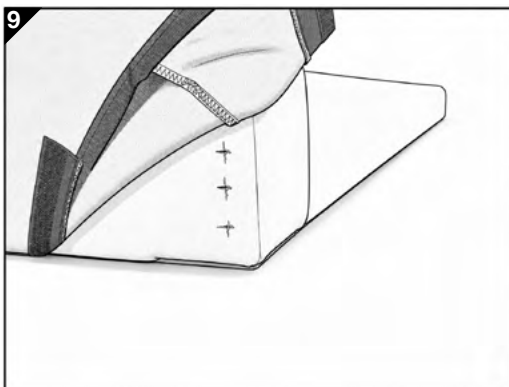

Installation instructions Lizard Bed

Expose the upholstery around the hole

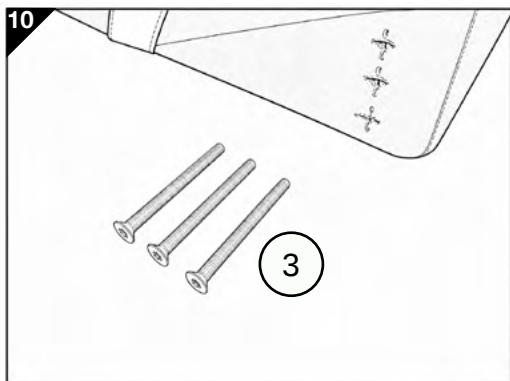

Additionally secure the foot section to the bracket using 1 M8x30 countersunk screw for each side

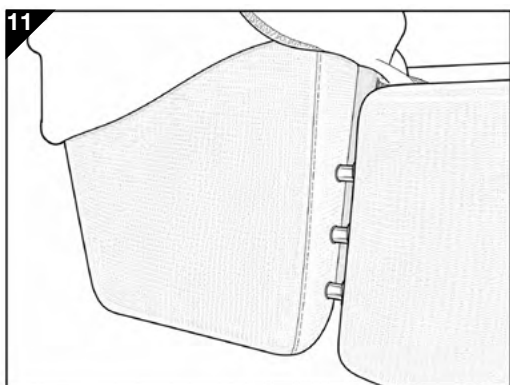

Expose the screw holes on the back of the headboard by pulling up the cover

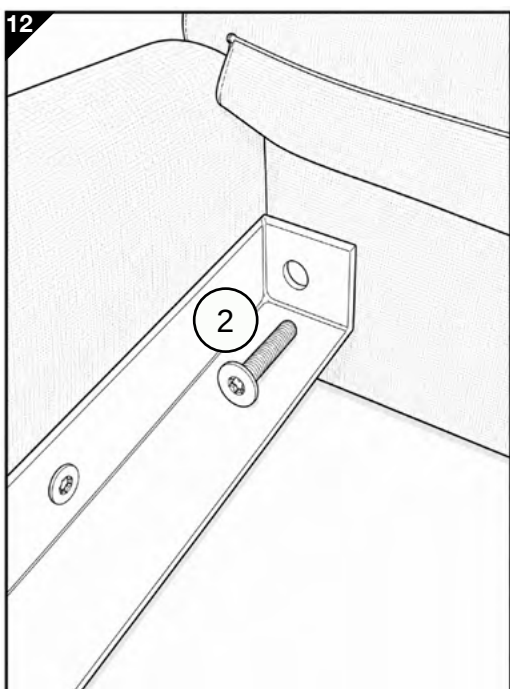

Installation instructions Lizard Bed

Secure the headrest from the outside using 3 M8x90 countersunk screws on each side. Tighten the screws loosely

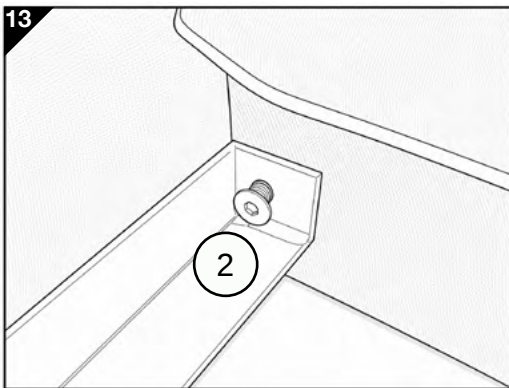

Be careful not to pinch the fabric

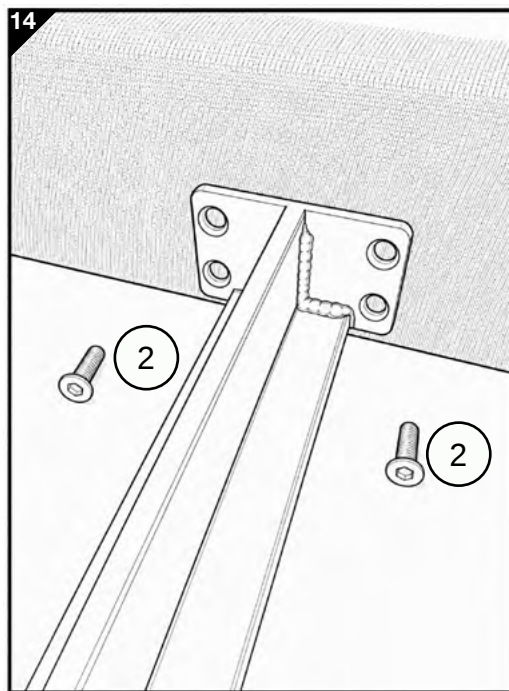

Expose the upholstery around the hole

Installation instructions Lizard Bed

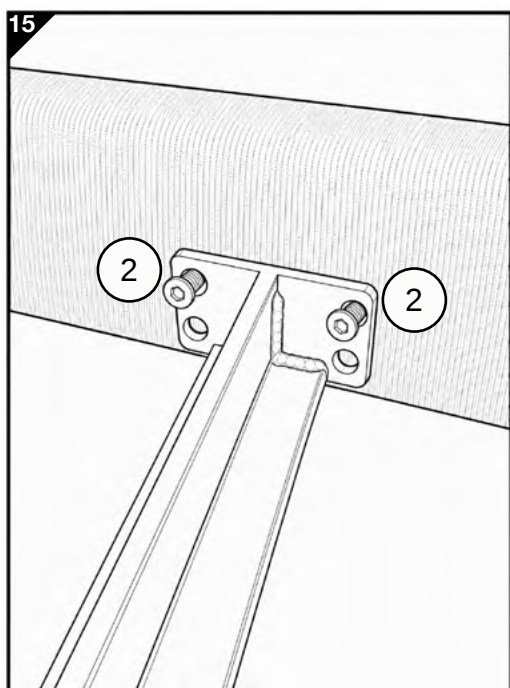

Additionally secure the foot section to the bracket from the inside using 1 M8x30 countersunk screw on each side

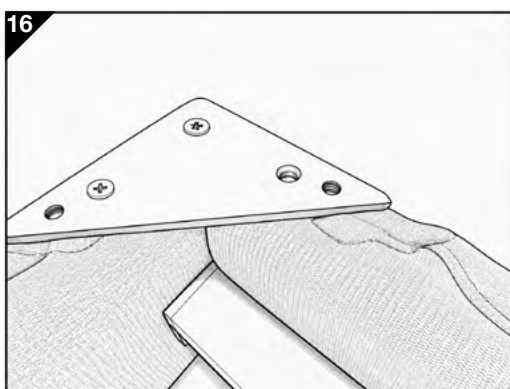

Carefully cut into the material to expose the holes based on the insertion depth

Installation instructions Lizard Bed

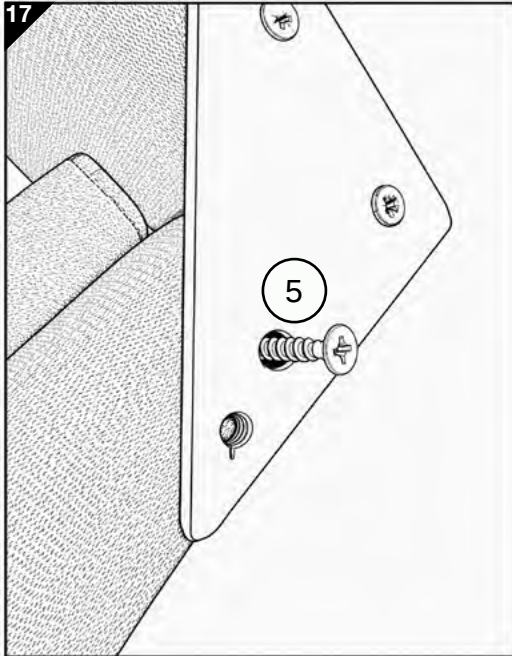

Screw on the center crossbar using
M8x30 screws

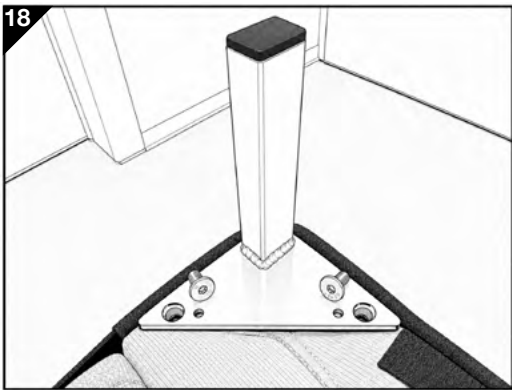

Now tighten all the screws securely,
and then flip the bed over so that the
base plate (see picture) is visible

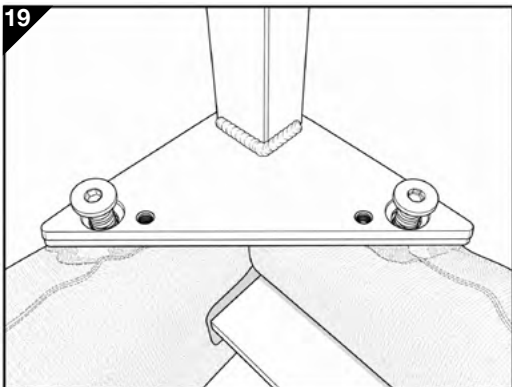

Installation instructions Lizard Bed

Screw the 5x25 countersunk screw into the base plate

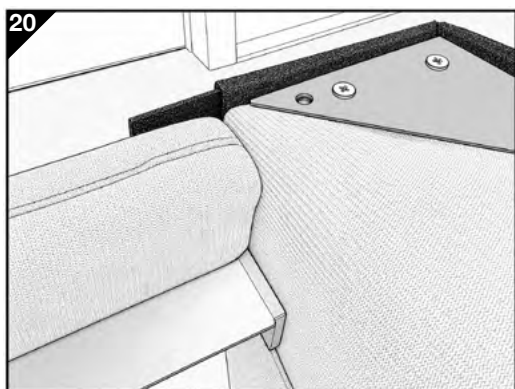

The leveling screw in the foot must be positioned flush with the base plate. Then place the foot in position

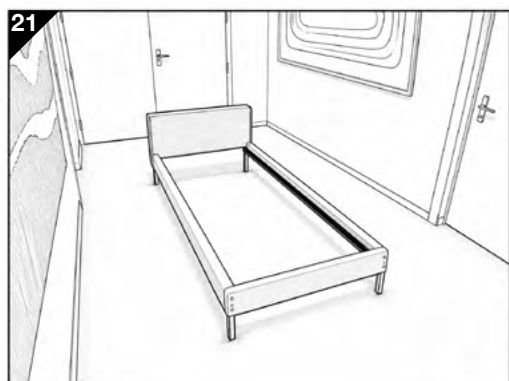

Tighten the foot securely using M8x16 screws

Installation instructions Lizard Bed

Position the fabric on the headboard so that it is wrinkle-free

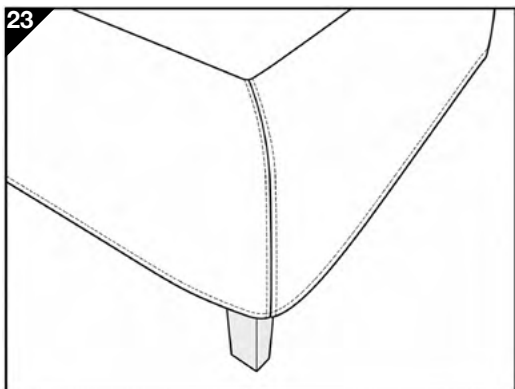

Turn the bed over and place it on its feet. Now you can level the feet using the leveling screws. To do this, loosen the screws on the feet. Once the feet are level, tighten the screws securely again

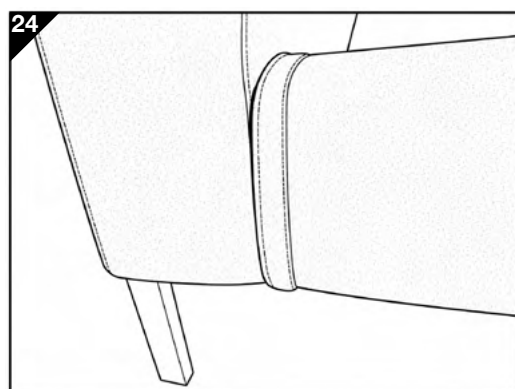

Position the cover without unfastening the Velcro

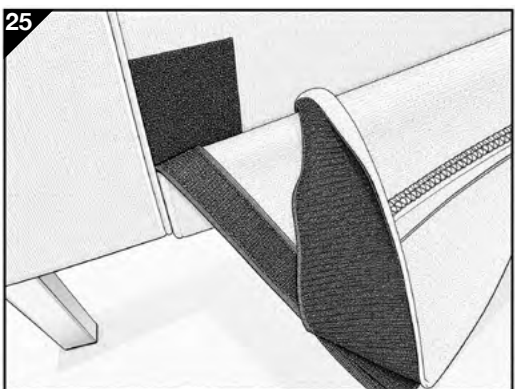

Installation instructions Lizard Bed

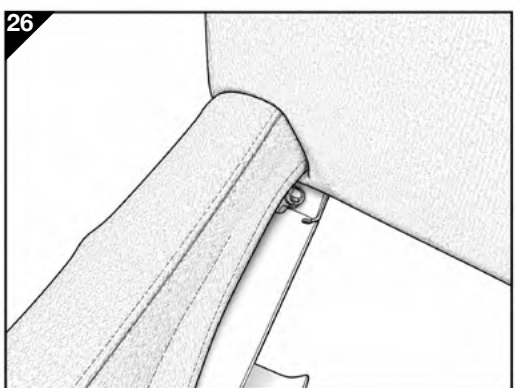

The corners must be positioned correctly

Position the cover without unfastening the Velcro

Unfasten the Velcro from the bottom up and attach the fabric to the side crossbars

Attach the fabric so that it is straight and wrinkle-free. Remove the Velcro backing step by step
